

Dear Angela,

11-12-2005

My wife and I would like to thank you for all of your help in restoring our credit. I know that we were very skeptical in the beginning but after we received our first round of results we realized that we had made one of the best decisions ever. We moved into our new home last week and saved over \$300.00 a month on our mortgage. We are looking into refinancing our cars and should save another \$150.00 a month on them. If you ever need someone to use as a reference do not hesitate to have them call me. I look forward to the next round coming back and will send the results to you ASAP. Your educational letters have also helped us realize how important credit is and we now understand the credit system so this will never happen to us again.

Thanks Again,
