

January 6, 2006

Dear Mr. Peyton:

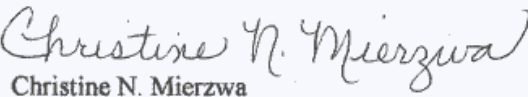

I just wanted to take a minute and thank you for the services we have received so far in the process of repairing our credit. Trinity Services has been doing as it promised in contacting the three credit agencies, seeing that we received those reports and, so far, even repaired one report for my husband.

I am particularly pleased with you in that when I call or e-mail you a particular question or concern, you respond within a timely manner and reassure me that the matter will be resolved after a particular time. My husband was impressed that you took the time to talk to him separately and explain the whole process that would be followed.

In these times, when retirees' incomes make it harder and harder to get by, we appreciate knowing that the cost of your services will reap us invaluable benefits.

Again, thank you for your professionalism and your friendly attitude. We look forward to more good results in our credit reports and scores.

Sincerely,

Christine N. Mierzwa
